Wide Format Scanners Made Easy *A new Distribution Agreement with GTCO Calcomp!*

Meridian, Idaho– March 27, 2006 – *The Other Solutions* is proud to announce that it will be distributing the unique series of GTCO Calcomp's line of Wide Format Scanners. The scanners range from the unique 18"x24" Flatbed Scanner to the 21 Wide Format Scanners in widths of 25 inches to an amazing 54 inches and completing the line up, GTCO Calcomp's affordable Aperture Card scanners. GTCO Calcomp's line of Wide Format Scanners is based on the latest available world wide scanning technology, yet they are affordable to meet every customer's needs.

The prices range from \$8,900 to \$27,900 and may easily be justified with scanning requirements of around 1,000 drawings. When combined with a wide format printer, you will only need to make approximately 500 copies for a *Return On the Investment!* The majority of the scanners have rated color scan speeds of up to 3"/sec., while all scanners have fast black & white or gray scale image scans, several have rated speeds of 10"/sec. This is extremely fast, demonstrating that a typical E-size drawing (36"x48") can be scanned in under 5 seconds! With the combination of WIDEimage^{NET} scan2file software and/or JETimage^{NET} scan2print software, you will have all your needs met for archiving and copying.

"The decision was simple based on the fact that GTCO Calcomp provides the service and support that our customers are demanding. Particularly, the complete solutions offering from GTCO Calcomp that adds the best 2-year on-site warranty in the industry, plus having several options for installation services and extended warranties after the first two years. Furthermore, we felt that GTCO Calcomp understands our customer's needs and are a perfect match for our expansion program. "The GTCO Calcomp wide format scanners and accessories are available through our website" states Henrik Vestermark, President of The Other Solutions.

About The Other Solutions:

The Other Solutions is a newly established internet distribution company. The Other Solutions specializes in finding and deploying new, unique and often difficult to find business solutions for customers throughout North America. Our corporate philosophy of "Thinking outside the box" differentiates us from other internet distribution channels since our goal is to provide affordable, high quality products and services to our customers through a "user friendly" online store. Our mission is to deliver the best, fast, securely and affordably. The Other Solutions distributes products from all over the world through it's headquarter in Meridian, Idaho. For more Information about The Other Solutions, its line of products and online store, please visit us at www.TheOtherSolutions.com

About GTCO CalComp

Founded in 1975, GTCO CalComp pioneered the use of pen-based electromagnetic sensing technology currently utilized in the Company's Interactive Whiteboard and Digitizer product lines. In 2004, GTCO CalComp expanded its line of interactive products with introduction of InterWrite PRS, a classroom response system. GTCO CalComp Inc, a global company, is headquartered in Columbia, Maryland, with offices in Scottsdale, Arizona; and Munich, Germany. GTCO CalComp maintains distribution partners in over 90 countries, providing solutions to professionals in Education, Training, Presentation, GIS, Computer Aided Design, Construction Estimating and Graphic Arts.
