### Power Surge with a Twist at an Affordable Price

**Meridian, ID – January 1, 2006** – The Other Solutions announces the availability of the new PSW60 —“Surge with a twist” (MSRP \$19.95) a wall-mount surge protector for only \$15.95, a 20% discount from the manufactures list price. At first glance, you see just another wall-mount, 6 outlet surge protector. But on a closer look, a smile begins to break out over your face as you say, “Why didn’t I think of that!”

The genius behind the PSW60 is that you can twist the outlets from the front to the side. This allows you to push furniture up to the wall without having the cords interfere. See? The smile is breaking out across your face as you read this. No longer do you have to rearrange your entertainment center, your dresser, your cubical, or your computer desk, to accommodate your surge protector. You can swivel one side or both. Twist it all the way, or just part of the way.

As if it couldn't get better, this little gem not only ingeniously transforms a 2 outlet wall outlet into 6 outlets, it also packs a whopping 1200 joules, and comes with a 5 year \$10,000 connected equipment manufactory warranty. The clever little PSW60 will become your best friend as you rest assured that your equipment is protected, and your furniture is pushed close to the wall. The PSW60, as well as the rest of the The Other Solutions products can be found at our online store, [www.theothersolutions.com](http://www.theothersolutions.com)
